

# VACANCY BULLETIN

**PSDC (PENANG SKILLS DEVELOPMENT CENTRE)** was established in 1989 and is the first tripartite, industry-led skills training and education centre in Malaysia. Since its inception, the PSDC has grown phenomenally to become the premier learning institution in the country, dedicated to meet the immediate human resource needs of the business community and to support and strengthen business requirements. It has attained both national and international recognition as a truly successful example of shared learning and a model institution for human resource development to be emulated within and beyond Malaysia. We are currently seeking suitable candidates to join our organization in the following position:

## **Engineer (Shared Labs Services)**

### Responsibilities:

- Maintain the EMC lab in the PSDC and ensure its optimal working conditions for customers
- Perform EMC tests for customers as assigned by Lab Manager/Engineer
- Attend to customers' requests and report to Lab Manager for further follow-up actions
- Maintain and update laboratory Equipment List to ensure that all equipment used by the laboratory for testing are tracked and calibrated at all times
- Equipment logistic coordination

### Requirements:

- Must be a Malaysian citizen
- Diploma or Degree in Engineering or equivalent
- Outspoken personality
- Able to communicate in English and Bahasa Melayu
- Eye for details
- Willing to work on shifts (if required)
- Full-time position available

---

Interested candidates are invited to apply online or write-in with a full resume stating qualifications, contact number, working experience, and expected salary together with a recent passport-sized photograph to [jayanthi@psdc.org.my](mailto:jayanthi@psdc.org.my) or to the following address:
